

**ALPHA**  
NEUROGENICS

**CBD DROPS LINE**

**PRODUCT INFORMATION**

## Consistent Quality You Can Trust.

Alpha Neurogenics line of CBD drops is formulated from whole hemp plants grown in the United States using a state of the art extraction process and precision manufacturing to produce the highest quality cannabidiol available.

Each production run of Alpha Neurogenics CBD drops is tested twice: following extraction to ensure virgin cannabidiol purity and after formulation to ensure the minimum milligram content that is printed on the label.

## Purpose Driven CBD Supplements.

**Alpha ICE™ 250mg** is THC-free and designed for all adult users seeking to boost their endocannabinoid system for better overall health.

**Alpha BSC™ 500mg** is THC-free and designed for healthy, active adults seeking to reduce recovery time associated with physical activity.

**Alpha FSC™ 750mg** contains trace THC (> 0.3 legal limit) and is designed for adults seeking maximum endocannabinoid system function to boost their body's natural healing ability.
